

BLANK LABELS

- ★ BLANK LABELS
- ★ THERMAL RIBBONS
- ★ PRINT & APPLY
- ★ FREIGHT & WAREHOUSE
- ★ OVER-PRINTING SOLUTIONS

At Supa Stik we produce over 2.5 million blank labels every month

We offer a variety of face-stocks, including:

- Thermal, Gloss or Matt papers - for standard applications
- Synthetic (Thermal or Standard) - for applications that require increased durability

We also utilise a wide range of adhesives to suit your application, including:

- Permanent, Removable, Super-aggressive & Freezer grade

Purpose-specific machinery : Low Cost Blank Labels

Supa Stik has recently purchased a machine specifically for the high-speed production of blank labels. This machine doesn't print labels it only cuts them to size, and so there's very little material wastage and a super quick setup, not like a normal full-colour printing machine. It's very, very cost-effective - we wouldn't be doing these volumes if it weren't!

Thermal Over-printing - Machines & Ribbons

Thermal over-printing machines & thermal transfer ribbons go hand-in-glove with blank labels. We've distributed these machines for over a decade, as well as run our own in-house printing service, and so are technically able to recommend the perfect solution for your specific situation.

Off the shelf or Custom sizes - both are fast and easy

We carry a large range of blank labels and Thermal ribbon ready for immediate supply straight off the shelf. For specific size requirements, we simply order a cutting tool to suit and away we go, fast and cost-effective. A sample of our standard size Blank Labels and Thermal ribbons are listed below;

Blank Labels		Thermal Ribbons
12 x 42mm	38 x 64mm	Black Ribbon 80mm x 300mm
21 x 51mm	57 x 181mm	Black Ribbon 100mm x 300mm
29 x 41mm	60 x 100mm	Black Ribbon 110mm x 300mm
		Black Ribbon 100 x 450mm
